## "Times, of Course"

That's what all the newsboys say when asked which Barre paper sells the best. There is no doubt about it.

We are going to do our duty by Cuby.

The "aristocracy," both human and canine, has been on exhibition in Boston this week.

The Panama commissioner to this country are pleased with the canal treaty. Delighted as President Roosevelt would say.

The white flag of prohibition, according to the Bellows Falls Times, was badly streaked with mud. It might all come out in the wash, however.

Farewell to the five cent fare. May it find a softer repose than with the Barre and Montpelier Power and Traction company! Who wanted to cheat the company, anyway?

The Hardwick Gazette is now prepared to receive "pomes on the beautiful snow," and will print them for only 17 cents per line. Vermont "potes," imbued with the rhythmic spirit, should turn to Hardwick-on-the-map.

It is rumored the Vermont speakership is spoken for already.—Middlebury Register.

Which side of the mountain does he grace? or is he located on top prepared to slide off either way, at his convenience?

A condemned murderer in Utah was given the choice of cold lead or the hangman's noose. He chose the former. In Vermont the condemned murderer is given a choice between the insanity dodge and a limited term in state's prison. The Vermont murderers are about equally decided in their selection.

The last of the big uns meet for their gridiron battle today, but all of the zip has been taken out of the contest by the fact that both have been beaten, Yale by Princeton and Harvard by Dartmouth. It is like trying to reanimate a political corpse to stir up excitement for this contest, yet spectators by the tens of thousands have congregated in the new Harvard stadium to see it. Reason, it is foot ball.

At best, whoever gets elected will be the governor of the state with all its varied interests, whether he be a lawyer, a minister, a bank president, a farmer, a blacksmith or a bootblack. Of course no newspaper man can offer, except as his own candidate. Well now, the fact is the state might do worse than call to the high station any one of the numerous editors of the Vermont press, with the exception of the Barre Anarchist.—Essex County Herald.

Whew! What a fortunate escape for the Barre Anarchist!

The desire to be punctual and constant in school attendance is a commendable one, but the incident of the South Royalton boy who for fear of an absent mark remained in school in his wet clothing and who died from the result of it, illustrates a case of misplaced zeal. Possibly the lad was too young to realize the danger, and it may be that his teacher was ignorant of the facts. If the teacher did know, she was very culpable. There is a chance for crowding a virtue to such an extent that it becomes a vice.

The lecture course is not a failure in the towns of Vermont, says the Middlebury Register, and it mentions successes in Middlebury, Randolph, Morrisville and St. Johnsbury. This is how the Register thinks it should be run: "In each case a through canvass for season tickets is made in advance and enough such tickets are subscribed for to make the course pay before the committee advertises it or the speakers, and entertainments are engaged. There is no hap-hazard, trust-to-luck methods. In some cases, where no one, or the members of the committee, feels able to give the time required to make a thorough canvass, a canvasser is hired, but a certain number of season tickets are pledged, before any course is advertised or engaged."

## JINGLES AND JESTS.

Economy.

The Husband.—What! You don't mean to say those furs were \$300?

"Yes, but I'm going to be very careful of them. In fact, I ordered another set for only \$100 so as to keep these for best."—Life.

The Sensible Possum.

Can't flatter Mr. Possum.

When he settin' on de tree

En I tell him dat he lookin'

Dea de bes' I ever see.

He climb a jiff higher.

En he wink his eye at me.

En he say, "My he! it is better

At de distance what you see!"

Taking Heroic Measures.

Naval Commission Coming Home.

London, Nov. 21.—Commander Robert E. Peary, Surgeon Henry G. Beyer and Lieutenant Commander William F. Sims, the United States naval commission which has been inquiring into the question of the most suitable barracks for marines and seamen, are passengers on the American line steamer Philadelphia, sailing from Southampton and Cherbourg for New York.

Typhoid in Williams College.

Williamstown, Mass., Nov. 21.—Another case of typhoid, making eight since the outbreak at Williams college, is reported. The latest victim is Eugene H. Leaning of Gloversville, N. Y. There are three other suspected cases in the infirmary, but no new ones were admitted, and the college officials believe that the threatened epidemic has been averted.

Louisville Masonic Temple Destroyed.

Louisville, Ky., Nov. 21.—Fire has destroyed the old Masonic Temple building at Fourth and Jefferson streets. The third floor was occupied by Hopkins theater, which was totally destroyed. Other losers include the K. W. Fowler Drug Co.'s store and several offices. The loss is estimated at \$200,000. The origin of the fire is as yet unknown.

## CONDITION OF TRADE

Labor Organizations Accept Reduced Wages Without Controversy.

## GREAT DULLNESS IN STEEL.

Construction Work Decreases—Agricultural Outlook Good—Railway Earnings Large—November Failures.

New York, Nov. 21.—R. G. Dun & Co.'s weekly review of trade says:

Labor organizations are wisely accepting reductions in wages without controversy, which removes one threatening industrial factor, and in several branches of business orders are more numerous. Construction work is decreasing, despite optimistic reports of more building permits issued last month than a year ago. Mild weather still checks distribution of merchandise usually in brisk demand at this season, which is reflected in restricted activity at woolen and worsted mills and clothing factories. There is not the complaint of traffic congestion that was so frequent last year at this time, railway earnings 7.3 per cent higher than in November to date in 1902 testifying to the increase in facilities.

Failures Numerous.

Failures are numerous and mercantile collections only fairly prompt, but the monetary pressure is being relieved by moderate imports of gold, while the total gold coin and bullion in vaults of this government has established a new high record at over \$955,000,000. Agricultural returns continue highly gratifying, and foreign commerce shows large gains. Contraction of speculation accounts for most of the loss in bank exchanges at New York, which were 31.7 per cent smaller than in the same week of 1902, while at other leading cities the average declined only 4.8 per cent.

A week has passed without any further material reduction in prices of iron and steel, and sentiment in the trade favors stability at the present position. There is little expectation of any revival until after the end of the year, as it is the season when quiet conditions are customary.

Winter Wheat Prospects.

Special reports from branch offices of R. G. Dun & Co. throughout the winter wheat belt indicate that while planting was somewhat delayed by dry weather a large acreage has been seeded and the situation is satisfactory, with prospects generally promising a good crop next year, in so far as can be judged at this date. Early in the week there was increased interest on the part of foreign buyers, but prices rose sharply, and the total movement for the week from all ports of the United States, including flour, was 2,362,032 bushels against 4,852,195 bushels last year.

Arrivals of wheat at western ports were liberal, 8,358,644 bushels, comparing with 8,015,071 bushels in the corresponding week of 1902. Corn fluctuated within narrower limits, little aggression being shown in speculation, and interior receipts aggregated 2,349,145 bushels against 2,009,880, while at Atlantic coast ports the outgo was 953,647 bushels, compared with 181,203 a year ago.

Liabilities of commercial failures thus far reported for November amounted to \$9,897,798, of which \$3,320,480 were in manufacturing, \$5,116,844 in trading and \$1,454,474 in other commercial lines. Failures this week were 249 in the United States against 296 last year and 17 in Canada compared with 24 a year ago.

Calls for Bank Statements.

Washington, Nov. 21.—The comptroller of the currency has issued a call for the condition of national banks at the close of business Nov. 17.

## Equal Distribution of Space!

## Now Listen to This!

A perfect Shoe should contain not a single particle of space more than necessary, otherwise the Shoe becomes large and ungainly. The Dorothy Dodd Shoe leaves more space for the foot than any other Shoe we know of, yet the Shoe itself is absolutely smaller than the ordinary Shoe. That is because it equally distributes space.
